

## MINI SPLIT CONDENSER DRAIN HOSE

### Submittal Information

Part No.	33501-33503
Document No.	SPEC33501
Date	2025-02-14
Revision	01

### General Properties

- Material: Polyethylene (PE) with a carbon black inner layer
- Color: White exterior with a black inner layer
- UV Resistant: ✓
- Applicable Environments: Suitable for both indoor and outdoor use

### Specification

Item No.	Description	Length	I.D	D	Weight	Std. Pkg	U/M
33501	Condensate	164'	1/2"	3/4"	2.0 kg	1	RL
33502	Drain Hose, UV Resistant	164'	5/8"	13/16"	2.2 kg	1	RL
33503		20'	5/8"	13/16"	0.26 kg	1	RL

### Features

- Features dual-sized ends and connection sockets every 20" for flexible installation.
- Ensure reliable drainage and performance for AC condensate.
- High-quality PE with a UV- and corrosion-resistant carbon black inner layer.
- Suitable for both indoor and outdoor use thanks to its durability and flexibility.
- Fits most mini-split ACs and heat pumps, easy to cut and connect.

### Applications

- For draining condensate from both indoor and outdoor units of mini split air conditioners, ensuring proper water drainage and system efficiency.
- For use with heat pumps, effectively draining condensate and maintaining optimal performance.
- Other Cooling and Dehumidification Equipment.
- Can also be used with other systems such as dehumidifiers or refrigeration units that require condensate drainage, depending on size and connection requirements.
